My new school

My new school is great. It is in Straelen and its name is SGS. There are a lot of pupils and teachers.

The school is very big and nice. There are lots of rooms and a really nice schoolyard. I like the music room and my classroom.

My timetable is OK. The lessons are long. We have got some nice subjects - Geography, PE, German and more. I like  English and Maths. But I love the breaks. We have got two small breaks and a lunch break. Then I can talk to my friends, eat my food or we can play.

I have got new friends and old friends in my form. But I think all my classmates are nice.

My new school is really good.
